

Oak Lodge Newsletter Spring '09

New for 2009 is that due to ever increasing requests by customers, we now have a fully fitted workshop to allow us to take on the servicing and repair of a wide variety of garden equipment, such as lawn mowers, rotivators, leaf blowers, strimmers etc.

We will collect, service/repair (including blade sharpening), and return your machinery directly to your premises.

Please call or email for further details or to arrange collection.

Having the new workshop also allows us to increase the number of bicycles that we service and repair. As with the garden machinery, we will collect, service/repair the bicycles and return them directly to you.

We hope that these enhanced facilities will assist you, our customers, in using Oak Lodge as a "One Stop Shop" for all your domestic and commercial requirements.

At Oak Lodge, we always endeavour to exceed our customers' expectations in the work we undertake. As such we have had a very successful last 12 months with a fantastic variety of work from decorating both private homes and commercial properties, to installing new bathroom suites. From the re-roofing of large garages and stables, to laying patios and decking, and many other jobs both large and small in between.

Particularly satisfying is the fact that the vast majority of our work has come through recommendation from satisfied customers.

We would like to thank all those customers that have been so pleased with the work we do, that they have recommended us to their friends and family. It is this that allows us to grow as a business and continue to work to our exacting standards.

Don't forget, that as a business, we will not undertake work that we feel we cannot complete to our high standards.

If you have a job that we feel is beyond our scope, we will do whatever we can to recommend a reliable tradesman that we know will do an excellent job.
